

INSANITARY CONDITIONS

You are Dev Mittal of 77, Param Enclave, Rohini, Sector 29, Delhi. You as well as the residents of the area are quite unhappy over the most insanitary conditions. Write a letter of complaint against the sweepers and request him to provide healthy arrangements lest any fatal disease should break.

Subject : Insanitary Condition and a complaint.

Sir,

This is to complaint on the unhealthy conditions prevailing in the locality for the past few days which are posing very serious health hazards.

Here I may state that the sweeper of this area often remain absent. This results in the lying of garbage and heaps of dirt along the road side. Consequently one can see pigs and stray animals on them. Throngs of flies, mosquitoes and insects can be seen in the nearby surroundings. The sanitary inspector too has been requested to make the area neat and clean but he pays a deaf ear. He shows his helplessness due to non-availability of sweepers. Kindly look into the matter lest the situation should worse. You know all deserve to live long.

Thanking you
Yours faithfully

You are Apporv/Apporva residing at 6441, Ram Vihar, Delhi. The Government of India has spent crores of rupees to clean Ganga River under the "Clean Ganga Project" with no fruitful results. It is a matter of concern for everyone. Write a letter to the Editor of a national daily in about 120-150 words drawing attention to this problem.

Subject : Clean Ganga Project.

Sir,

Through the esteemed columns of your newspaper about 'The Clean Ganga Project' and the same has brought no fruitful results. Will the authorities explain on the failure of this project and the wastage of public money ?

Earlier it was pledged by the authorities to make it clean and fresh as her base in Gangotri. I think that the poor technology, carelessness, indifference and corruption have turned the project in deep shambles. In case we ponder over the poor technology alone, the fault or slackness will rest on the part of the responsible officials. Rather they should have initiated prompt action against the corrupting technologists. It is very sad to shut our eyes and go on putting the exchequer to a great loss. I think that the people seem to be only after earning a good booty out of this luxurious project. They do nothing, care nothing and never intend to pay heed for the national work.

Hence, whatever may be the lacuna, it gives a clarion call for an inquiry but the project should never be put into a delaying chamber.

Hoping for an urgent as well as a severe action.

Yours truly
