APPLICATIONS OF COMPUTERS

Peep into the Chapter

- Computers at Schools
- Computers in Banks
- Computers at Airports
- Computers in Shops
- Computers in Hospitals
- Computers in Offices
- Computers at Railway Stations
- Computers at Home
- Computers for Entertainment
- Computers for Printing and Designing

Hello friends! Now, you know what computers are and how they work. You should also know about the fields where computers are vastly used today. Here, we will learn just that!

Click Start!

You must have used a computer at your home and in school. Using the given hints write their uses at these two places.

homework, video games, cartoons, figures, letters, circulars

At Home

1. To play games
2. To watch cartoons
3. To do homework

At School

1. To draw figures
2. To type letters
3. To print circulars

Children, can you name some places where you have seen a computer being used?

1. Schools
2. Offices
3. Banks
4. Railway Stations
5. Airports

COMPUTERS AT SCHOOLS

You must have seen computers in your school. In schools, they are

Teaching computer as well as other subjects.

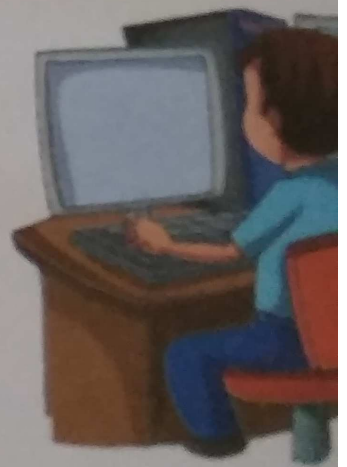

Keeping record of books in the library.

Preparing results.

Preparing question papers.
